

Dead to Writes (Cassandra Ellis Mystery)

Cassandra Ellis is a soon-to-be published author, days away from achieving her lifetime goal. But before she can celebrate, before she can even have her first book signing, she's brought in to Baltimore City Police Headquarters for questioning in connection to a real-life murder. It seems she's the last person to see the victim alive, since she had just met with the former arsonist to conduct research for her next book. Most damning, her day planner was found next to the body. When another of her subject matter experts is killed-- again right after meeting with her-- Cassie decides to investigate things herself, rather than leaving it in the hands of the police. Although she'd love to get her hands on the homicide detective assigned to the cases. Using all the tools available to her, including her research skills, her knowledge of murder and murderers, and... psychic parrots, she tries to solve the case before another friend is killed. Along the way, she finds out that murder in real life is different than murder on the page. And don't miss *Two Wrongs Don't Make a Write*, the second book in the series, available in paperback and Kindle.
